

## ILLINOIS SCALE FOR COAL MINERS

STATE CONVENTION AT SPRINGFIELD ADOPTS A SCHEDULE.

Will Insist on the Terms - Differential Schedules for the Several Fields Adjusted According to the Columbus Agreement - Conditions in Indiana Collieries.

Springfield, Ill., Sept. 22.—The state convention of coal miners adopted a scale of prices for Illinois Tuesday. The gross-weight scale as presented by the committee and adopted is as follows:

Streator and Clarke City, 48 cents per ton; Wilmington field, including bushing, 69 cents; Springfield Hill, 69 cents; LaSalle, 64 cents; Lincoln, 42½ cents; Bloomington, third vein, 65 cents; Bloomington, second vein, 55 cents; Pontiac, 64 cents; Peoria and Canton sub-district, 45 cents; Springfield, 37.7 cents; Peoria, 30 cents; Danville and Grape Creek, 37 cents; Belleville, 37 cents; Duquoin, 33 cents; Coal Valley, 51 cents; Gilchrist and Wanlock, 51 cents; Assumption, 52½ cents; Chicago & Alton railroad, south of Springfield, 3½ cents; Sorrento, 37 cents; Litchfield, No. 2, six-foot vein, 32½ cents; Litchfield, No. 1, three-foot vein, to be proportioned according to the respective conditions of Nos. 1 and 2.

Scale of day work for entire state as follows:

Track-layers, \$2.25; time men, \$2.25; drivers, \$2; cagers, \$2; trappers, 95 cents; inside laborers, \$2; top hands, not less than \$1.55; dumpers, \$2; car trimmers, \$2; box-car trimmers, \$2; box-car shovelers, \$2; labor, bottom diggers, \$2.

Machine mines—Peoria and Canton, sub-district, shooting, loading and timbering, 28½ cents per ton; machine runners, \$2.20 a day; machine helpers, \$2; machine, third men, \$1.90.

Belleville district—Shooting, loading and timbering, 21 cents a ton; machine runners, 5 cents a ton; machine helpers, 4 cents a ton; all veins five feet and under in this field, 5 cents a ton above district price. These prices to govern all mines.

Taylorville—Machine runners, 4½ cents a square foot; shooting, loading and timbering, 19 cents a ton; helpers, 3½ cents; other machine runners, 1.1 cents a square foot; helpers, 0.9 of a cent a square foot; shooting, loading and timbering, 23½ cents.

Girard—Shooting and timbering, 4.1 cents a ton; runners, 4½ cents a ton; shovelers, 3.3 cents; loaders, 12½ cents.

Clarke City—Shooting and loading and timbering, 28½ cents a ton; machine runners, \$2.20 a day; machine helpers, \$2.05 a day.

Moweaqua—Loading and shooting, 33 cents a ton; the different workers to adjust their part of the total.

Danville district—Shooting, loading and timbering, 22 1-5 cents a ton; all other machine men to be advanced in proportion; all yardage work to be advanced from prices existing to this suspension in proportion to advance of mining wage.

The scale committee also made the following demands:

"We demand the right to employ a check weighman; we demand our pay semi-monthly. All mines not above enumerated are to adjust prices according to the scale in their own competitive fields. These are yearly prices and no distinction will be made between summer and winter."

A motion was adopted that the men of any operator in the state who will pay the scale adopted as above shall resume work at once.

Mr. Greene of Belleville made a fight for a difference between gross weight and coal cleaned in mines by rake, pick or fork. The convention decided that no privileges of this kind be allowed, but all coal must be by gross weight and the operators could clean the coal after it was dumped.

The miners passed a long list of resolutions. They favor affiliation with the hoisting engineers, and promise to use their influence to have engineers who have been discharged during the strike reinstated. It was declared the sense of the meeting that no miner should be discriminated against for any stand taken by him during the strike. The state officers and delegates from Illinois to the national convention are thanked for their "noble fight" at Columbus. The resolutions adopted at Coal City Sept. 16 were concurred in. They condemn Sheriff Martin for the Hazelton affair.

Spring Valley, Ill., Sept. 22.—Some of the big operators in the northern Illinois coal fields decline to pay any better rate than 62½ cents for screened coal. This action was expected here. General Manager Dalzell said, when the mines stopped, that his men would have to go back to work at the old price if they wanted to dig coal for his company. The miners positively assert that they will not dig coal for a fraction of a cent less than the scale made at Springfield Tuesday, which is 65½ cents.

Conditions in Indiana.

Indianapolis, Ind., Sept. 22.—The State Labor Commissioners have gone into the mining districts to see if they can be of assistance in arranging for the return of all the Indiana miners to work at satisfactory wages.

"If we could bring together the Indiana operators and the operators in

the Grape Creek (Ill.) district, I believe an understanding satisfactory to everybody concerned could be reached," said Commissioner McCormack. "The Indiana operators and those in the Grape Creek district compete for the same market, Chicago, and they ought to have a mutual understanding."

Coal Famine in Iowa.  
Des Moines, Iowa, Sept. 22.—Coal has been advanced from \$1.75 to \$2.75 a ton in Des Moines and Tuesday it was selling at \$3.50. Dealers expect the price to range above \$4 before Saturday. This is on account of the scarcity, no mines in the district being at work except one. Telegrams from Sioux City are to the effect that industries there are likely to close on account of inability to get coal from this district.

## MAY CRITICISE THE JUDGE.

Wisconsin Court House Hands Down a Decision Against Judge Bailey.

Madison, Wis., Sept. 22.—Justice J. B. Winslow of the Wisconsin Supreme court handed down a decision Tuesday that is of particular interest to lawyers and newspaper publishers. The opinion is in the case of the proceedings for contempt of court by Judge W. F. Bailey of Eau Claire against H. C. Ashbaugh and L. A. Doolittle. The court says:

"We are well persuaded that newspaper comments on cases finally decided prior to the publication cannot be considered criminal contempt. Truly, it must be a grievous and weighty necessity which will justify so arbitrary a proceeding whereby a candidate for office becomes the accuser, judge and jury, and may within a few hours punish his critic by imprisonment. If there can be any more effective way to gag the press and subvert freedom of speech, we do not know where to find it."

## HITS BOARDS OF TRADE.

Possible Effect of the Decision Made by Judge Foster.

Washington, Sept. 22.—Judge Foster's decision in the United States district court at Topeka Monday, in which he held that the Kansas City Live Stock Exchange was a trust, organized in violation of the Sherman anti-trust law, may result in closing all the live stock, grain and produce exchanges of the country.

The decision, if it is upheld by the Supreme Court of the United States, to which it will be appealed, will be of the utmost importance, for it will class all exchanges which are organized on the same lines as the Kansas City institution as unlawful combinations in restraint of commerce.

## ON VERGE OF WAR.

Assistant Secretary Roosevelt So Tells Officers of Naval Militia.

New York, Sept. 22.—"This country is on the verge of a war with Spain." These are the words of Assistant Secretary of the Navy Roosevelt. He used them at a conference with some of the commanders of the naval militia, whom he had summoned to Washington to learn of the state of their commands and the number of men that can be depended on to complete the complement of the warships and the auxiliary navy.

Assistant Secretary Roosevelt cautioned the gentlemen who had been called into the conference not to underestimate the gravity of the situation.

Must Be Punished for Bribery.

Indianapolis, Sept. 22.—Orin Downs gave John King of Johnson County \$2 for his vote at the last election. Downs was indicted by the grand jury for bribery, but the court dismissed the indictment on the ground that the words "two dollars" did not necessarily mean anything of value, and that there was nothing in the indictment to show that King would not have voted the same ticket anyhow. The Supreme Court has reversed the ruling of the trial court, and says that "two dollars" is a thing of value, and that even an attempt corruptly to influence the vote of an elector, whether it succeeds or not, is an indictable offense.

Free Methodists at Freeport, Ill.

Freeport, Ill., Sept. 22.—The annual Illinois conference of the Free Methodist Church commenced Tuesday afternoon in Embury Church, Bishop G. W. Coleman of Evansville, Wis., presiding. This conference is composed of the Chicago, Peoria, Fox and Rock River districts. It is probable that a great many changes in pastorates will be made at this conference, as ministers can remain on one charge but two years, and the time of many of the ministers will expire this fall.

Favors "Middle of the Road" Men.

Des Moines, Iowa, Sept. 22.—The state election board decided against the fusion element of the people's party of Iowa and in favor of the "middle of the road" element in the matter of the contention over which faction is entitled to the party name. The fusion faction is acting this year with the Democratic party and will not be able to use the party name on the official ballot on account of an anti-fusion law. Fusion leaders expect to appeal to the courts from the decision of the state board.

First Frost in Michigan.

Detroit, Mich., Sept. 22.—Reports from the state show that Michigan received its first serious frost Monday night. Reports to this effect are received from Fostoria, Portland, Crosswell, Utica, Romeo, Saline, Coloma and Warren.

## KILLS SECTION 22 FOR RAILROADS

ATTORNEY-GENERAL M'KENNA DELIVERS AN OPINION.

Is Against Senator Elkins—The Decision Says That the Clause Was Not Intended to Be Discriminatory Against International Railway Lines—Railway Men Disappointed.

Washington, Sept. 22.—The long opinion of the attorney-general upon the operation of section 22 of the tariff law was made public Tuesday after being considered for a second time by the president and his cabinet, and after Senator Elkins of West Virginia and Mr. Richard C. Kerens of St. Louis

had made a most determined but futile effort to persuade the president and the attorney-general to accept their construction of the law.

The attorney-general construes the section as not imposing a discriminating duty upon foreign merchandise imported in bond through contiguous countries, and holds that section 4228 of the revised statutes has not been repealed. Therefore, goods purchased abroad and imported in bond by way of Canada or coming to ports of the United States in British bottoms will not be subject to a discriminating duty of 10 per cent.

The opinion is a disappointment to some owners of American merchant vessels and to those interested in the transcontinental railroads of the United States.

There is no doubt that it was the intention of the framers of section 22 as it became a law to discriminate against the Canadian railroads and foreign ships. Senator Elkins, who claims to be partly responsible for the added words which called forth the opinion, admits as much, and has been here for several days exerting his influence to the utmost to convince the president and the attorney-general that such was the intention of Congress.

The methods adopted by the advocates of the discriminating duties are said to be in a way responsible for their failure. Fearing to make their object too plain while the tariff bill was under discussion they framed a clause which they believe would have the desired effect and then had it inserted in the section while the measure was in conference.

Senator Elkins has for some time advocated a bill to impose a discriminating duty upon merchandise imported in vessels of foreign register, his object being to encourage and build up the American merchant marine. Realizing that such a measure could not be passed at the last session he endeavored to accomplish his object by having the substance of his bill incorporated in section 22.

The Pacific railroads and allied lines desiring to divert to themselves the bonded merchandise intended for the United States now carried over the Canadian Pacific Railroad are said to be responsible for the other new words in the section.

Having failed to impress their views of the meaning of the law upon the president and the attorney-general these interests will carry the question into Congress, and will attempt at the next session to have the tariff law amended so as to incorporate the discriminating features they desire. When the propositions come up considerable opposition will develop, which may be sufficient to defeat them.

It is understood that the opinion of the attorney-general is entirely satisfactory to the president and the secretary of the treasury.

Loan Societies Given a Blow.

Anderson, Ind., Sept. 22.—Judge Ryan of the sup'ior court made a sweeping decision on the question of foreign loan associations Tuesday. For the past few years many foreign associations have been operating a questionable business in this state. By interest, fines, forfeitures and assessments under a dozen names, they have run the rate of interest on loans up to as high as 35 per cent. per annum. Several debtors of the United States Building and Loan Association of Minnesota protested and refused payment. Judge Ryan ruled that the operations of this association were illegal; that they could hold the debtors for only the principal and a rate of interest at 6 per cent. and that all fines, dues, assessments and other things in the past must be credited.

Peace Treaty Ratified.

Constantinople, Sept. 22.—The preliminary treaty of peace between Turkey and Greece, which was signed on Saturday by the representatives of the Sultan and of the powers, has been ratified by the Sultan.

## FIGHTING IN INDIA IS HARD AND HOT

TROOPS MEET OPPONENTS WORTHY OF THEIR STEEL

General Woodhouse Is Wounded—Large Force of the Insurgent Tribesmen Under "Mad" Mullah Attack General Blood's Camp—Heavy Reinforcements Ordered.

Simla, Sept. 22.—The Haddad Mullah, with a large and well organized force of insurgent tribesmen, attacked the camp of General Sir Bindon Blood at 9 o'clock Monday evening. Fierce fighting, which lasted five hours, followed. General Woodhouse was severely wounded.

British Regiments Ordered Out.

London, Sept. 22.—Drafts from eight regiments of cavalry have been ordered to be made ready for shipment to India.

Great Storm in Florida.

Jacksonville, Fla., Sept. 22.—Florida was visited by a West India storm Tuesday. The rain in Jacksonville has been almost continuous for the last thirty-six hours. Fears are entertained for the safety of the schooners R. W. Dasey, W. H. Skinner and J. H. Cannon, which left on Monday with cargoes of lumber. At Fernandina considerable damage was done along the river front, two people, names unknown, are reported to have been drowned. The center of the storm appears to have passed over Titusville and Cocoa, about 150 miles south of this city. At the former place fifteen inches of rain fell.

Colony in Arkansas Valley.

Denver, Col., Sept. 22.—The Arkansas valley has been selected as the place where hundreds of families from the cities of the United States will be located on farms of their own and become self-supporting. Adj. M. J. Ferrie, attorney and general counsel for the salvation army, arrived in Denver after a trip through the valley. He said: "My visit was very satisfactory and I think the country something grand—the veritable paradise of America. I think we will need in 2½ for our first colonization project about 6,000 acres, and we expect to locate about 600 families upon it."

African M. E. Appointments.

Mount Pleasant, Iowa, Sept. 22.—The fifteenth annual session of the Iowa conference of the African M. E. church closed an interesting three days' session, which was presided over by Bishop A. W. Arnett of Wilberforce, Ohio. There were over sixty members of the conference present from the various states included in the territory of the conference. There are sixty-three church buildings in the conference, and over 4,500 members. The next session of the conference will meet at Evanston, Ill., next fall.

Arizona Farms Ruined.

Phoenix, Ariz., Sept. 22.—The Gila river is again swollen from excessive rains in eastern Arizona, and has reached a height unknown since the great flood in 1890. Ferries can no longer cross it. The Maricopa and Phoenix bridge across the Gila south of Phoenix is in danger of being carried away. Many valuable farms have been ruined.

Fear Trouble With Indians.

Pocatello, Idaho, Sept. 22.—Much uneasiness is felt at the Indian agency at Ross Fork over the news that there are several hundred Indians in Custer County slaughtering deer and elk for the pelts, and that the settlers there are preparing to drive the redskins out of the county by force. It is feared that there will be serious trouble.

Many Go Down With the Ship.

London, Sept. 22.—A dispatch to the Daily News from Vienna says that the steamer Ika, with a crew of ten and carrying fifty Austrian passengers, was entering the port at Fiume on the river Flumara, when she collided with the English steamer Tiria and sunk in two minutes. Most of the passengers perished.

Indiana Corn Crop Not Hurt.

Indianapolis, Ind., Sept. 22.—The weekly crop bulletin announces frost throughout central Indiana Monday night. Most of the corn is cut and was not damaged. Market gardeners were the greatest losers. The bulletin announces that the corn crop in general will be good.

Says Trainmen Robbed Him.

Minneapolis, Minn., Sept. 22.—George Utman, one of the persons held up and robbed on the Great Northern near Smith Lake, Minn., Monday, declares that two of the three masked robbers were trainmen, and that John Fisher, who is under arrest, was not one of the party at all.

Frost Hurts the Ohio Valley.

Cincinnati, O., Sept. 22.—Reports from all parts of the Ohio valley indicate that the frost did much damage Monday night, especially to tobacco and to the late corn. The frost was general in southern Ohio and Indiana and northern Kentucky.

Cities Shaken by Earthquake.

Venice, Sept. 22.—An earthquake lasting several seconds was felt here at 2 o'clock Tuesday afternoon. No damage was done.

Trieste, Sept. 22.—There was an earthquake here Tuesday afternoon.

## THE BASEBALL REPORT.

Brooklyn astonished Boston by administering a severe defeat, although a victory later in the afternoon compensated the Bean-eaters somewhat. Baltimore defeated New York and moved a little farther ahead. Washington strengthened its hold on sixth place by downing the Phillies. Cincinnati had no trouble with Pittsburgh. SUICIDE THEORY EXPLODED.

Coroner Probing Into the Mystery Surrounding Cashier Struble's Death.

Shepherd, Mich., Sept. 22.—The coroner's inquest, which was resumed Tuesday after a week's intermission, developed little that was new in the case of Elmer Struble, the murdered cashier of the Farmers' bank here. The evidence was largely along the line of expert testimony. Those who had adhered to the suicide opinion were non-plused by the introduction of evidence that a revolver could not be thrown from any point in the bank to the place in which the revolver was found by Deputy Sheriff Estee. The other story that Struble had killed himself for his life insurance was exploded by the showing that he only carried \$1,000 insurance, and only one of these policies contained any clause against suicide. The evidence offered was all against the suicide theory and tended to prove that Cashier Struble was shot by some other hand than his own. Sensational developments are promised for to-day's session of the inquest.

Receiver for a Broken Bank.

Benton Harbor, Mich., Sept. 22.—General D. B. Ainger of Lansing, ex-state bank commissioner, has been appointed receiver of the defunct First National Bank of this city, and will take charge of affairs in a few days. It was found impossible to reorganize the bank, as the stockholders would not consent to surrender their stock to new men, and they are unable to respond to a 100 per cent. assessment. The bank examiner still insists that the assets are more than enough to pay all creditors in full, but depositors generally do not believe they will realize more than 50 per cent. on their deposits.

## SUPERIOR STOPPED FROM PAYING DEBTS

CITY TREASURER ENJOINED BY A CREDITOR.

W. R. Daws, Who Holds a Claim For \$2,500, Wants His Money and Wants It Before Anybody Else Gets At the Strong Box.

West Superior, Sept. 22.—[Special]—An injunction was issued this morning against the city restraining the treasurer from paying any salaries or debts of any kind until the judgment of W. R. Daws for \$2,500 is paid. A legal fight is promised and in the meantime officials are unable to get their pay.

## IN LUETGERT'S DEFENSE.

His Attorneys Are Confident They Have a Strong Case.

Chicago, Sept. 22.—The state has rested its case in the Luetgert trial. The last witness for the prosecution left the stand at 2 o'clock yesterday and the state's attorney announced he was done. Today began the hearing of testimony in Luetgert's defense.

Attorney Vincent says the defense will bring witnesses to show:

That Mrs. Luetgert's disappearance was not a shock, or, in fact, a surprise, as she had announced her intention of going away to the neighbors and had disappeared before.

That she was not dead at the time the state has attempted to show she was boiled in the vat, and that witnesses will testify they have seen her alive since the night of May 1, and the presumption is that she is still living.

That the presence of the rings in the vat will be satisfactorily explained; that they are not the rings of Mrs. Luetgert, but rings substituted by someone who wished to harm the accused man.

Evidence tending to show the motive for the alleged murder was introduced yesterday. Love for Mary Siemerling, the housemaid of Luetgert, was the motive, according to the state's theory. Two witnesses testified that eight years ago Luetgert brandished a revolver and threatened to shoot his wife.

## BELIEF IS SPREADING.

Claim for Unitarian Doctrine Made in National Conference.

Saratoga, N. Y., Sept. 22.—The national conference of the Unitarian and other Christian churches was called to order Tuesday by the president of the association, Senator George F. Hoar of Massachusetts, in a few words of welcome. The chairman of the council, Rev. Minot J. Savage, D. D., of New York, read an address presenting subjects to come before the conference.

"The greatest hindrance to the multiplication of Unitarian churches," said the address, "is the spread of Unitarian doctrines in other churches. While rejoicing in the spread of Unitarian ideas, we must protest for intellectual honesty. There are too many who remain in churches whose doctrine they repudiate, too many preachers who declare in their sermons what is contradicted in the creeds of their churches."

The meeting of the "National Alliance of Unitarians and other Christian women" was held in the afternoon. The alliance is for the quickening of religious life in churches and for the spread of the Unitarian faith generally. It numbers 9,000 members, and \$48,000 was raised this year.

Russian Grain Crops Are Failures.

Washington, Sept. 22.—A very important dispatch has been received at the state department from the United States consul at Odessa, Russia, confirming the failure of the grain crops in that country. Russia is an important competitor with the United States for the grain markets of the world, and a general failure of crops in that country means a strong demand for our surplus.

National Baptist Conference Ends.

Boston, Sept. 22.—At the last day's session of the American National Baptist convention, Rev. John H. Frank was chosen chairman of the foreign mission board and Rev. J. P. Robinson chairman of the home missionary board. Resolutions were adopted condemning lynching. The meeting adjourned to meet next year in Kansas City.

London Banks to Protest.

London, Sept. 22.—The Evening Standard Tuesday made the following announcement: "So profoundly moved is the city about the extraordinary letter of the governor of the bank of England that a meeting of the representatives of all the banks in the clearing house has been called to discuss the situation. When the bankers meet it is to be hoped they will enter an emphatic protest against further efforts to please the bimetalists at the expense of the nation's credit."

No Danger of an Epidemic.

New Orleans, La., Sept. 22.—There were nine cases of yellow fever reported to the board of health Tuesday afternoon at 6 o'clock, when the day's work of the physicians ended. There were, however, no deaths, and the doctors all agree that the situation is steadily improving. The fever at present, instead of developing into a malignant type, is as mild as

## PRIZE LEAF CROP IS IN THE SHEDS

TOBACCO WELL CURED WITH  
GOOD COLOR.

Growth This Year Figured at \$1,500,000

—Weight Per Acre Will Not Be  
As Great This Year As Some Per-  
sons Had Expected, as Leaf Is  
Thin.

Tobacco growers are feeling happy over the outlook for the crop of '97. It has been put in the shed in fine condition, is free from frostbite, wind whipping and hail cutting, except in one or two localities, and from the present indications will cure down properly, in which event it will prove to be the prize crop. An examination of some early crops in this locality shows the leaf to be already well cured with a good color and of the silky finish so much desired. The intense dry heat of the past two weeks has not caused the leaf to suffer damage, as many growers feared. There has been no pole rot or shed burn reported and up to the present time no indications of white vein.

Leaf Is Thin and Silky.

Notwithstanding the bulky yield, weight per acre will not be as large as many anticipated, as the leaf when cured is thin, but this will not necessarily decrease their profits, as leaf of that kind will bring a higher price by the pound than tobacco that is thick and heavy. The buyers have not begun operating to any extent in the new crop, and are not likely to until the curing process is farther advanced. Still sales are reported from Vernon county at 6 to 8 cents, and in a short time buying will be brisk, with every probability that the producers of Rock and Dane county, which grow two-thirds of the Wisconsin crop, will be enriched to the tune of a million and a half dollars.

The '96 Crop In Good Shape.

Sampling of the '96 crop proceeds rather slowly owing to the fact that the leaf has not dried out thoroughly since it went through the sweating process, which was not as heavy as usual, the crop having been put up in a rather dry condition, but in every instance the '96 leaf has been found in excellent condition and entirely free from damage.

This fact will benefit the growers indirectly, for while the '96 goods are owned by a comparatively few concerns, it gives packers a good margin of profit and will enable them to make quick sales, encouraging them to again invest in Wisconsin leaf.

Sales at Fair Prices.

The late transactions in local markets include a 400 lot of '96 sold by Jensen of Edgerton to a New York firm; fifty cases of '95 and '96 at Deerfield to Hemming of Stoughton and several small lots at Janesville to eastern manufacturers. The market in New York is showing more life and recent sales include 400 cases of '96 Wisconsin for so called "binder purposes," at 12 1/2 cents, the best figure quoted for months.

## NEW PASTOR FOR COURT ST.

Quarterly Conference Discusses the Outlook and Makes Recommendations

L. A. Methodist are watching the work of the annual conference with lively interest. To Court Street church the conference is especially important as a new pastor will be chosen.

The outlook for Court Street church so far as its incoming pastor is concerned, was freely discussed at a quarterly conference held last Thursday evening. The board expressed preferences but did not instruct in the interests of any particular man. Among the possibilities are Mr. Hall of Whitewater, Mr. Stevens of Fort Atkinson, Mr. Leak of Clinton, Mr. Haylett of Fond du Lac, and Mr. Naylor, formerly of Milwaukee.

A willingness to place the whole responsibility in the hands of the presiding elder was expressed, and the church will doubtless be well served. R. V. Halsey was present at the meeting. His health is improved and he may take up some light work in Milwaukee the coming year.

## WANTS ROCK RIVER PEARLS

Tennessee Man Suggests That There Is Money in Clam Hunting.

Herman Myer, a pearl buyer of Carthage, Tennessee, says that he wants all the Rock river pearls he can get. He has written several letters to Janesville people and in a letter received last evening he says:

SEPTEMBER 16, 1897. DEAR SIR—I am surprised that your people are not finding pearls. I get them from other places on your stream and am paying a great deal of money. Why not get your share of the money? I know a little town whose postmaster's receipts are doubled by postage on pearls. They are all around you in the mussels and clams and only await being taken out of the shells. Tell the people about them and get up an interest in them and get the money for them circulated among you. I will gladly answer any question. Very truly,  
HERMAN MYER.

## COMPANY A IS INSPECTED

Good Showing Made By the Light Infantry—Forty-Six In Line.

Lieutenant Caldwell of the Seventh United States Cavalry, Custer's old regiment, inspected the Light Infantry last evening. There were forty-six men in line and the company presented a fine appearance. The Beloit company was inspected last Friday night and several members of that

company drove up last night and witnessed the work of the Janesville boys, and incidentally stayed for the dance. The inspecting officer goes to Monroe today and will inspect that company tonight.

## WOOLEN MILLS VERY BUSY

Proprietor Ellis Says He Will Keep Eighty Hands Employed.

Never in its history have the Rock River Woolen mills of this city done a better business than today. The last quarterly report including the months of June, July and August showed that fully \$50,000 worth of woollens had been manufactured and sold.

And this is not all. Orders are now on hand which guarantee the running of the mill throughout the winter months at a full capacity.

During the last few days orders have been coming in so fast that the company has been obliged to refuse them for lack of capacity to deliver on time.

Proprietor Jonathan Ellis of Port Dover, Canada, who is now in the city, stated to a Gazette representative that the business this summer had been much better than he had looked for.

"The future seems just as promising," said Mr. Ellis. "The way orders are now coming in on every mill makes it safe to say that the mill will run all winter and will give employment to at least eighty hands."

Mrs. Miller has been for several years forewoman in the Emporium of Dressmaking under Miss Williams of Los Angeles, California, and her long experience in her own state, makes her one of the first artists in her special branch of work. ## THIS DAY IN HISTORY

479 B. C.—Battle of Plataea: the Persians in Greece being routed and Mardonius, their commander, killed.  
1555—Battle of Zutphen: Sir Philip Sidney mortally wounded.  
1761—Coronation of George III.  
1776—Nathan Hale executed at New York.  
1829—Major Theodore Winthrop, author and soldier, killed at Big Bethel, Va., June 10, 1861.  
1862—President Lincoln issued his warning proclamation of emancipation, which was perfected Jan. 1, 1863, freeing the slaves in all states in rebellion at the last named date.

**THE DEFICIT.**  
Democrats need not worry about the deficit. Under the McKinley administration a deficit will not remain long. Revenue is likely to be short of expenditure for another month but the very thing which is happening was foretold by the republicans while the Dingley bill was before congress. Just as soon as the extra session of congress was called, and this was done in President McKinley's inauguration address, importers began to rush goods into the country far beyond the country's immediate needs, and far beyond the importation which would have taken place if no extra session was to occur. Everybody knew that the chief, if not the sole work of the session would be the revision of the tariff, and, of course every one was aware that the revision would be upward. Hence the importers, anxious to escape the higher duties which were to come, brought in goods in March, April, May and June to an extent never before known in an equal length of time. This, as every one saw, and as the republicans often stated, necessitated a corresponding shrinkage in importation for a few months after the Dingley act went into operation, with a proportionate loss of revenue.  
Is anybody alarmed, however, at this state of things?  
Can any person point out a business man of any sort who betrays the faintest uneasiness over the fact that the revenue ever since the new tariff went into effect has fallen short of the expenditure? No such person can be found anywhere in this country. Revenue shortages were a regular experience under the Wilson law, and were interrupted but seldom. The shortage under the Dingley act is likely to be only a temporary affair, and to end in November or December. There are at least two reasons for this expectation. The anticipatory stocks of imported goods must soon be used up, and the business revival, which increases the consumption of domestic and foreign goods, will swell the importations. Under an equal volume of importations the present tariff will undoubtedly yield more revenues than did its predecessor, and the business improvements will probably soon put the importations, notwithstanding the higher duties, up near or up to the figures of last year. Meanwhile the treasury gold fund keeps on increasing, the favorable merchandise balance remains high, and the business outlook is brighter than any which dawned on the country before since 1879 and 1880.

## True Bill Against Jacob Kesner.

Chicago, Sept. 22.—A true bill charging Jacob L. Kesner with the attempt to bribe Ald. William Mangler was returned yesterday by the September grand jury. An indictment is in preparation and it is expected this will be returned to Judge Chetlain's court this afternoon. There will be several counts to the indictment, all under section 32 of the criminal code, which provides for a fine not to exceed \$5,000 for any attempt to bribe a public official.

## NEW MEDICAL DISCOVERY.

## A Positive Cure for Dyspepsia.

This may read as though we were putting it a little strong because it is generally thought by the majority of people that Dyspepsia in its chronic form is curable, nor is it such a difficult matter as at first appears.

The trouble with Dyspeptics is that they are continually dieting, starving themselves, or going to opposite extremes or else deluging the already overburdened stomach with "bitters" "after dinner pills", etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief. Such treatment of the stomach simply makes matters worse. What the stomach wants is rest. Now how can the stomach become rested, recuperated and at the same time the body nourished and sustained.

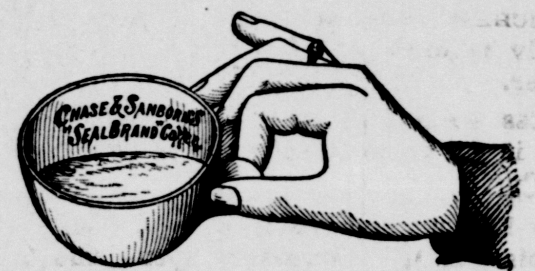

This is the great secret and this is also the secret of the uniform success of Stuart's Dyspepsia Tablets. This is a comparatively new remedy, but its success and popularity leaves no doubt as to its merits.

The Tablets will digest the food anyway, regardless of condition of stomach. The sufferer from Dyspepsia according to directions is to eat an abundance of good, wholesome food, and use the tablets before and after each meal and the result will be that the food will be digested no matter how bad your dyspepsia may be, because as before stated, the tablets will digest the food, even if the stomach is wholly inactive. To illustrate our meaning plainly, if you take 1,800 grains of meat, eggs or ordinary food and place it in a temperature of 98 degrees, and put with it one of Stuart's Dyspepsia Tablets it will digest the meat or eggs almost as perfectly as if the meat was enclosed within the stomach.

The stomach may be ever so weak yet these tablets will perform the work of digestion and the body and brain will be properly nourished and at the time a radical, lasting cure of dyspepsia will be made because the much abused stomach will be given, to some extent, a much needed rest. Your druggist will tell you that of the many remedies advertised to cure dyspepsia none of them has given so complete and general satisfaction as Stuart's Dyspepsia Tablets and not least in importance in these hard times is the fact that they are also the cheapest and give the most good for the least money.

## FIX RICKETY WALKS THEY ARE COSTLY

### COUNCIL SHOULD TAKE MORE DECISIVE ACTION.

Matter Has Been Fooled With Until the Calendar Is Burdened With Damage Suits—Cost Is Too High And There Is No Excuse

Several new damage suits have been begun against the city, and it would appear to an intelligent observer that it is about time for the common council to wake up and do something. The aldermen have been dallying with this problem long enough. Nearly every meeting of the council has been marked by a learned discourse on this subject from some of the aldermen, but damage suits still swell the court calendar making expense to the city whether the plaintiffs recover damages or not.

It is high time this thing was stopped.

Property owners should be ashamed to have it known that their defective sidewalks are not repaired until the council forces matters, but the council ought to be ashamed of the fact that nothing is done to bring the property owners to time. The cost of defending lawsuits—not to speak of paying judgments—would build many miles of walks, for which property owners would be compelled to pay when taxes became due.

The authorities lay the blame on the system, saying that the charter provisions prevent them from doing so and so. This is no excuse whatever. If the rules under which the aldermen work are out of date, the remedy lies in the council's hands—let them change them.

It is time the council did something beside talk. If the system is at fault, change it, but compel the property owners to build and maintain good sidewalks. The aldermen owe this duty to the people, and if they cannot perform it, they had better resign. If they "do not have time to attend to it," they should hire inspectors.

The aldermen should fix up the sidewalks and keep them fixed, or else turn over their offices to men who will.

The time to strike has come.

## RECEPTION TO W. B. VAN AKIN

Newly Elected Y. M. C. A. Officer Warmly Greeted In Oshkosh

W. B. Van Akin, formerly of this city, has arrived in Oshkosh and taken up his duties as secretary of the Y. M. C. A. The Oshkosh Times says:

"Friday evening Mr. Van Akin was given a very pleasant reception in Y. M. C. A. hall. Many of the christian people of the city were present and met Mr. Van Akin. Flowers and plants disposed to good effect lent a cheerful air to the interior and a fine musical and literary program was presented, the audience testifying its appreciation by frequent encores. M. D. Crawford, president of the local organization, presided and near the close of the program read a thoughtful paper in which he outlined the needs of the Oshkosh association and its field for usefulness. He introduced Mr. Van Akin, who made some timely remarks, bespeaking the cooperation of Oshkosh people. Rev. W. L. Demorest also made a five-minute address and there was a program of musical and literary selections."

## BENEATH DEATH'S CLOUD

James Duncan Holmes.

James Duncan Holmes passed away at his home on Milwaukee avenue, at 4 o'clock this morning. For months he had been fighting against death—too weak to endure a journey to a blander climate, too courageous to give up hope. Bravely he had battled and just as bravely he approached the end. His last messages were full of love and thoughtfulness.

Born in Durand, Ill., Aug. 9, 1858, he came to Janesville with his parents when but two years of age. He lived his life under the eyes of Janesville friends and as boy and man so departed himself as to deserve the confidence of those about him.

As a young man he was active in building up the tailoring business in which he and his father were partners. Since his father's death he has been alone. Of his immediate family there survive him a wife, mother, two brothers, William and Clayton and a sister, Mrs. W. H. Judd.

Mr. Holmes was well known in fraternal circles being a member of the Masons, Knights of Pythias and Modern Woodmen. Masons will have charge of the funeral services which will take place at the home Friday afternoon at 2 p. m. Rev. C. F. Elliott, of Hinesdale, Ill., formerly pastor of All Souls church will preach the funeral sermon.

Mrs. Jane A. Tenney.

H. A. Tenney is home from Concord N. H., where he was called by the death of his mother, Mrs. Jane A. Tenney. Mrs. Tenney was seventy one years old and left three sons and two daughters. The burial took place near the old homestead but a few miles from Concord.

## TEMPLARS OFFER TO GO INTO COURT

### LAY CHARGES BEFORE MAYOR THOROUGHGOOD.

Three Members of People's Lodge Make the Rounds of the City and Get Evidence of a Number of Violations of the Election Day Ordinance.

Local members of the Independent Order of Good Templars have declared war against Janesville saloon keepers. They declare that saloons throughout the city were kept open yesterday, contrary to the laws of the state of Wisconsin, and that they are kept open every Sunday. An investigating committee, composed of Edson Baker, J. W. Webb and William Moffitt prominent members of the lodge, walked into a West Milwaukee street saloon yesterday afternoon, finding the place as wide open as if no election law were in force. After making a careful survey of the place, the committee quietly made their way out of the back door. Chief Hogan was then appealed to and today a committee from the lodge decided to lay the matter before Mayor Thoroughgood, after which a vigorous prosecution will follow in the courts.

"The mayor was inclined to treat us very contemptuously," said a member of the committee this afternoon, "and we began to think he must have forgotten what he said when he brushed aside our petition to the common council. We reminded him that he said anybody who made specific charges would always get a fair hearing. We are now ready to put those specific charges in his hands."

"We accomplished work yesterday that we have long been contemplating and when this case comes to trial we will have at least three witnesses who will substantiate every charge we make."

District Chief Templar W. G. Kildow stated today that People's Lodge from now on would vigorously press all cases for violation of the saloon ordinances.

## ROBBED COUNTY 80 YEARS

Captain Miles Familiar with the Gang Lynched in Indiana.

Captain Isaac Miles, now of the town of Janesville, formerly lived in Ripley county, Indiana, where the five robbers were hung by citizens. He was in that part of the country when the hanging took place, and says the civil officers had been proven powerless in the matter. The thieves had infested that county for not less than eighty years. The gang was always known as the Levi gang.

Captain Miles knew old "Grandpa" Levi who founded the gang eighty years ago. The old man lived to over a hundred years old. He was taken before the noted phrenologist, Dr. Fowler, one day when the doctor was doing his blindfold test. With out seeing Levi, Dr. Fowler felt of his head and said:

"This man has all the marks of a criminal. If he hasn't been in the state's prison he ought to be."

## FAST TO HYMEN'S BONDS

Smith-Lennartz

A quiet wedding was solemnized this afternoon, Grant H. Smith and Miss Minnie M. Lennartz being joined in the holy bonds of matrimony. The ceremony took place at the Franklin street residence of Peter J. Lennartz. Rev. C. J. Koerner performed the ceremony at 3:30 o'clock only the immediate relatives and a few intimate friends being present. Miss Lizzie Lennartz sister of the bride acted as bridesmaid, while J. T. Wilcox was best man. Following the ceremony a tempting wedding luncheon was served.

Many gifts told of the regard of friends for the young people. The bride is the daughter of Peter J. Lennartz, and the groom, who has made Janesville his home for the past five years, is a fireman on the North western road. Late this afternoon the happy couple left on a two weeks trip and on their return will make this city their home.

Costigan-Gosselin.

At St. Mary's church this morning, the Rev. R. J. Roche pronounced the words that united as husband and wife, Miss Agnes Gosselin and John Costigan. The bride is a resident of Indian Ford, while the groom is a well known farmer in the town of Janesville.

A Fruit Whirl.

A carload of fruit makes a considerable lot, and when it is all hauled to one place of business as the car Sanborn received this morning was, it is very evident that a great deal of hustling must be done to get it distributed among purchasers.

Low prices and good qualities will always bring about this end and Sanborn's store today has been a lively place. Everything in the fruit line was there, peach, pears, plums (all kinds) grapes (all kinds) apples, etc. The goods were all selected in Chicago yesterday, and the entire lot is being sold at wholesale cost. It is safe to say that fruit will be no lower than at present with chances favorable to an advance shortly. Peaches are not as plentiful nor as good size as last season, and it will be policy to buy them now, as it is impossible to tell what the stock will be later. Sanborn has plenty of fruit for everybody. Store open tonight until ten o'clock.

With his head and face matted with blood, Daniel Emerson, of the town of Newark, was brought to the city this afternoon, and taken to the office of Dr. W. H. Palmer. Emerson, who is a farmer, fifty years of age, says he was assaulted by a six-foot neighbor named Finley, and wants Finley arrested at once.

## CLAMS IN DEMAND AT A LOWER PRICE

### JANESVILLE SHELLS ARE GOOD FOR BUTTONS.

Iowa Firm Will Be Glad to Buy a Quantity But Can Pay Only 40 Cents a Hundred For Good Stock on Board the Cars in This City.

Clams may be as steady a crop as tobacco if the demand continues to increase. Some of the clams sold a few months ago went at a dollar a hundred, but the regular trade will not pay this price. About 40 cents a hundred, \$8 a ton, is the prevailing figure. The Gazette received the following letter today:

American Pearl Button Manufacturing Co., manufacturers of high and low grade pearl buttons. Sabula, Iowa, September 18, 1897. Janesville Gazette, Janesville, Wis. Gentlemen—Referring to our correspondence some time ago, we would like to ask the question if there is any of the shells on hand, that were sold to Gutman Bros., or similar to them. We might buy a quantity of those shells yet, if we can get them at the right price. We are willing to pay 40 cts. per 100 lbs. F. O. B. car, Janesville, Wis., if the shells are of a good size. Expecting to hear from you we are yours truly.

Surely such a restorative is preferable to unpalatable and indigestible mineral drugs and unsanctioned nostrums. The nation at large assuredly thinks so, judging by the unprecedented demand for the article from Maine to the Pacific, a demand now supplemented by immense orders for it received from tropical America, Mexico, the British and Spanish Colonial possessions, and elsewhere. Both at home and abroad it is recognized as a standard remedy and preventive, the decisiveness of its effects recommending it everywhere.
